Government Offices of Sweden

BRIDGING LAW AND TECHNOLOGY

International Workshop for the Deployment of Small Modular Reactors

MISTERVLAD/SHUTTERSTOCK.COM

Stockholm, Sweden

8-10 December 2025

TOPICS AT A GLANCE

- authorising small modular reactor designs
- small modular reactor pre-licensing and licensing challenges, including pre-licensing, siting, environmental reviews and public participation
- factory manufacturing, mobile reactors and transportation
- marine applications (propulsion, off-shore and on-shore power)
- fuel cycle, waste management and decommissioning

EXAMPLE SESSION

Overview of Session and Presentation of Working Group Outputs
Workshop Moderator and Session Co-Chairs

Cross-Cutting Panel
4 Speakers

Panel Discussion and Audience Q&A
Session Co-Chairs and Panellists

Open Discussion
Workshop Moderator, Panellists, Session Co-Chairs, Other Invited Experts, and Audience

Session Conclusions
Workshop Moderator and Session Co-Chairs

Day Conclusion
Workshop Moderator

KEY QUESTION

Are legal frameworks in place for the wide variety of innovative nuclear technologies and applications under consideration?

APPROACH

Legal, technical and policy experts from government and the private sector will gather in a workshop to tackle the legal challenges of advancements in small modular, transportable, marine and Generation IV reactors. The three-day event will include high-level leaders from the public and private sector and provide for interactive panels for collaborative discussions and conclusions.

To foster co-operative knowledge sharing, topical working groups will be formed in advance of the workshop, framing and contextualising the issues to be discussed ahead of the workshop. These groups will meet virtually multiple times to pinpoint key issues and challenges, directing the workshop discussions.

Additional opportunities for networking are provided over two evenings in a cocktail reception and dinner.

PRACTICAL INFORMATION

Registration Fees

- Private entities (law firms, companies, industry organisations, etc.): EUR 600
- Government, academia, IGOs and public-interest NGOs: EUR 300

Location

Nalen — Regeringsgatan 74, 111 38 Stockholm, Sweden

Participants

Up to 200 in-person participants
